Conceptual Framework of the Project

**NETWORKING**
- EU experience in implementing trade associations

**CAPACITY BUILDING**
- WADE DE modelling of the Thai electricity sector
- Training-workshops for relevant government agencies

Main Actors/Stakeholders
- Small to medium sized industries/companies/associations relevant for DE
- Government agencies (MoE; DEDE; EPPO; EGAT; PEA; MEA,...)

Thailand-EC Cooperation Facility
Enhancing Institutional Capacities for the Market Development of Decentralised Energy Systems in Thailand

Decentralised Energy
A Local Solution for Global Problems

The overall objectives of the action are two-prong, namely:

- To help facilitate trade and investment flows between EU and Thailand in the field of energy and environment through cooperation among trade associations.
- To enhance capacities among key target groups within the government agencies and authorities in order for them to formulate and implement policies and regulations that will encourage investments in decentralised energy (DE) systems.

Summary of activities:

- Kick-off, inception and launching workshop in Thailand
- Development of a master plan and roadmap for the establishment and operation of a Thai-based organisation with the mission to promote DE
- Consolidation of network/stakeholders and creation of support base for the Thai-based organisation
- Establishment and initial operation of the Thai-based organisation with the mission to promote DE
- Conduct of WADE DE modelling
- Conduct of training-workshops on the use of WADE DE Model and dissemination of results
- Management, coordination and reporting
